

corvi®

Global Traction

Corvi LED has been exported to 25 countries in Asia, Europe, Middle East and Africa since 2012.

Many Firsts in the Industry

- First designed & Made in India LED lighting since 2012
- Engineering Plastic Body
- Dimmable Range
- Inbuilt Driver
- Backlit Panel
- No Heatsink
- 150 Lumens per Watt*
- No Metal Spring Retainer
- Minimalistic Design
- Full Glow LED Surface and Tubes
- End to End Linkable LED Tubes
- World's first driverless Spot with plastic heat sink
- World's first outdoor range without heatsink and metal
- All products in 3 colors

Pursuit of Efficiency

Philosophy

Dedicated to the pursuit of efficiency, Corvi sees efficiency as a measure of creativity based on precision, determination & imagination. The journey to achieve efficiency began with understanding simplicity. A process led by minimalistic design.

Industrialized Design

The design is highly industrialized to achieve standardization, ensuring that every product conforms to stringent quality standards at a value-laden price.

Minimalism

Minimalism became the driving philosophy, which is reflected in our products and in our conduct too. Harnessing the potential of LED technology, Corvi provides necessary design required to achieve optimum efficiency, saving high-energy costs

Ethos

We Conceptualize, Design and Make products:

- 1) That substantially contributes to human lifestyle for betterment.
- 2) That can be mass produced with limited or no human intervention, achieving economies of scale, helping offer high technology products to the masses.
- 3) That will substantially reduce product form factor.
- 4) That consume least possible energy, material, packing and natural resources, generating zero waste, reducing logistical and distribution costs, in the entire manufacturing and supply chain, leaving least carbon footprint.
- 5) That will have multifold product life span, reducing substantial environmental impact.

Vision

To redefine the future of electrical appliances and lighting by pioneering innovations that maximize efficiency, enhance sustainability, and improve everyday living.

Mission

At Corvi, we are committed to designing and manufacturing cutting-edge electrical appliances and lighting solutions that prioritize efficiency, durability, and environmental responsibility. Through continuous innovation and a relentless pursuit of efficiency, we aim to empower consumers with smarter, more sustainable choices for a better tomorrow.

Superior Performance

150

Lumens Per Watt*

50% more light output per luminaire
Lesser luminaires for same illumination

33%

High CRI

Helps identify the exact color of objects
under the light

lesser

Dimmable

With a simple triac dimmer,
feel the power of dimming lights

energy

Low UGR

Gives glare free
ambience

bill

$PF > 0.97$

Maximum energy savings and
reduced electricity bills

CCT 5700K

Milky White

Matching natural daylight color.
Not bluish which is more towards UV

Reliability

Efficient heat management by underdriving LEDs at less than 25%. LED light output is sustained for long years due to this effective thermal management.

5x

Driverless

Very often, drivers fail before the LEDs dim or fail because of electrolytic capacitors in the drivers which have limited life. On the contrary, Corvi LED has intelligent IC based inbuilt driver which does not fail.

longer

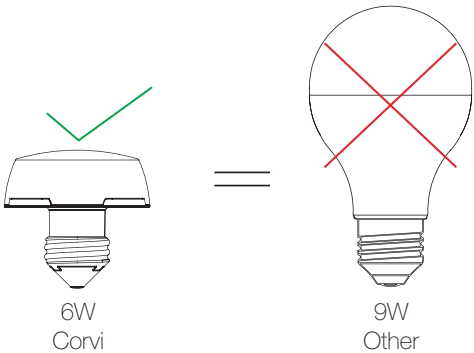

life

Highest Surge Protection

Surge protection eliminates frequent failures due to surges in power lines.
